

# Even-Span Greenhouses

The Straight-Eave O-10: Smallest of the Even-Spans, to save space and money, the O-10 is a big, productive greenhouse in value and features. Only 9'-5" wide, it provides space for two full-width benches and hanging pots, baskets, and side shelves. Garden care is easy, with a single line of ridge vent sash assuring proper ventilation.

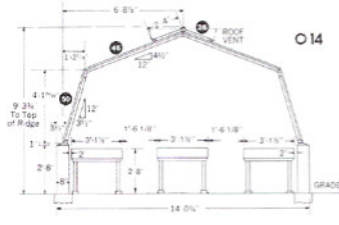

The Straight-Eave O-14 / O-14G: A popular Even-Span thanks to king-size accommodations for 3 full width benches - almost a 50% growing space bonus over 2-bench models. Price includes 2 lines of full-length ridge sash. All lengths available from 8'-6" to 26' - 6" or longer, in "Add-On" sections you can buy anytime (in multiples of 2 or 3 sections.)

The curved-Eave I-14 / I-14G, C-14/C-14G: A greenhouse so beautiful in proportions and overall grace that architects and homeowners make it a "theme" center for America's loveliest gardens. Easily installed as a free-standing or attached year-round garden, the curved-eave is truly a modestly priced "estate-style" greenhouse.
